NUMBER 105

NO NEW PARTY

SAYS MR. BRYAN

GIVES ADVICE WHICH IS GOOD AT THIS TIME.

If Reform Comes It Must Be Within the Democratic Ranks, He Believes.

William J. Bryan takes no stock in the suggestion that the reformers in the two old parties organize a new party. "Stay in your party and reform it," is the Bryan plan. The former presidential candidate discusses the question at length in this week's issue of the Commoner, saying in part:

"The advocates of a new party suggest that the reform element of the democratic party and the reform element of the republican party 'join together' in the formation of a new party. This is impracticable at the present time. The reformer, if he is a real reformer, wants to see his reforms carried out. He is so much interested in seeing them carried out that he will work in the part where he thinks he can work to the best advantage.

"There are a great many republican reformers, and it will be easier to get republican reformers to act with democratic reformers in the democratic party than it would be to get republican reformers to join with democratic reformers in organizing a new party, for the republican reformers know that they can do more to secure reforms by acting with the democratic party than they can by acting through an independent party. And so more democratic reformers would be willing to join with the republican reformers to carry out reforms through the republican party than would be willing to join with the republican reformers in the organization of a new party.

"Let the democratic reformers fight for the control of their party and let the republican reformers fight for the control of the republican party. The Commoner believes that the democratic party has the largest hope and best prospects and therefore it urges activity among the democrats who desire to make the party a positive force for the remedying of existing abuses.

In our big line of rocking chairs we have three dozen at the regular \$4.50 kind in rattan that will go at \$3.48. Texas Department Store.

RULING FAVORS STATE AGRICULTURAL BOARD

COURT SAYS BODY HAS CONTROL OF INSTITUTIONS.

Decision Applies to Both Educational and Business Affairs—May Change Phase of Affairs.

Guthrie, July 29.—The state board of agriculture has power to control its institutions, both as to education and business affairs, was a decision rendered in the Logan county district court today, and comprises the first curtailment of authority supposed to be possessed by the state board of affairs created by the last legislature. The action was that of the Cook Construction company of owa against the state auditor to compel him to pay a warrant in the construction of an \$80,000 building being erected for the agricultural and mechanical college at Stillwater.

Attorney general West recently advised the state auditor that the state board of agriculture had no authority to make the contract after organization of the board of affairs, the latter being understood to have direction of the state's business management.

The board of agriculture held out that it possessed all the power of a board of regents at the time the constitution became effective, which power the legislature could extend, but not restrict.

In deciding that the agricultural board had the business management of its schools, which includes the district agricultural schools, the district court adds that it has the power to contract for and control the construction of such buildings and to allow accounts against the building appropriations.

A writ of mandamus was issued upon the state auditor, and a warrant for \$2,100 was paid this afternoon.

In the absence of the Attorney General, notice of appeal to the supreme court was not given.

This was the first suit where the issue of authority between the board of affairs and another department of the state government has been squarely drawn, and it is believed the decision, if sustained by the supreme court, practically means the elimination of the new board, where other departments were given expressed authority by the constitution.

The board of Affairs idea has not been popular among state departments and those opposing its creation last winter predict a repeal of the act in 1911.

RUSH FOR INDIAN LANDS.

Government Officials Have Ordered 50,000 More Registration Blanks.

Spokane, July 28.—So great is the rush of applicants for Indian reservation lands to be drawn August 9 that land department officials today placed an order for 50,000 more registration blanks, 10,000 powers of attorney and 60,000 colored envelopes.

At 4 p. m. yesterday, with little more than half the time for registration passed. Superintendent Witten had received 148,955 applications. It is figured that there are about 6,400 homesteads available on the Kalispel, Spokane and Coeur d'Alene reserves.

John Scribner Released.

John Scribner was today released on \$8,500 bond. This bond covers both the case of Zeke Putman and Mrs. Frank Scribner. His bondsmen are Dr. Truax of Stonewall, F. R. Harris, Bob Ford and Crawford & Bolen.

JULY WHEAT UP TO \$1.34.

Shorts Send New York Market Up 9 Cents a Bushel.

New York, July 28.—The price of July wheat was advanced 9 cents per bushel in the New York market today on a vigorous demand by the traders on the short side of the market. They finally paid \$1.34 per bushel, which equaled the high point of the season. The price of the crop of late months advanced 2 cents per bushel on reports of, black rust in the Northwest. Upward of 130 carloads were taken for export today.

VOTE FOR GOOD ROADS.

In an editorial urging the people
of Carter county to vote for an
issue of bonds for road and bridge
purposes, the Ardmoreite very per-
tinently says:
"We can hardly expect to get the
best class of citizenship without of-
fering them some inducement to
come to our county nor can we ex-
pect any assistance from the state
or government unless we show some
disposition to help ourselves in this
matter. We think that in the near fu-
ture our legislature will appropriate
as much money for the building of
roads as Tennessee has done amount-
ing to over \$10,000,000. We are sure
that the county in the state that
fails to raise the money and begin
to improve her roads will stand very
little show of getting any assistance
from the state; we believe that the
congress of the United States will
soon make some appropriation for
public highways as they will for
waterways and we cannot expect to
draw any thing from that source un-
less we prove to them by our works
that we are in earnest about improv-
ing our roads. Hereafter when a man
runs for congress the question of
building public highways should be
put to him by his constituents and
if he is not in favor of making an
appropriation for the purpose of
building good roads in his district
we think we should refuse to elect
him and send a man who would prom-
ise not to vote a dollar for improv-
ing waterways unless the same
amount is appropriated for building
a road to the boat landing that a
navigable waterway would create.
Let's vote the bonds and prove to our
county commissioners that we have
confidence in their judgment."

SHERMAN CONCRETE CO.

THE SUFFRAGE MOVEMENT.

Battle for Amendment to the Consti- tution of the State of Washington.

Spokane, Wash., July 29.—Flaunting
flags of 13 stripes and four five-pointed
stars as a centrepiece, represent-
ing the states in which women have
a right to the ballot, with decorations
of white and yellow in profusion and
prominent workers enlisted in the
cause, the College Equal Suffrage
Club of Spokane, headed by Mrs. Z.
W. Comerford, has begun a series of
street, park and hall meetings to
continue until the state convention in
October. The club will also maintain
Camp Equality at Liberty Lake, Wash.
The leaders of the movement are
Mrs. May Arkwright Hutton and Mrs.
La Reine Baker, of Spokane, who will
be joined in a few days by the Misses
Gehrude, Louise and Helen Kangley
of Seattle. The Kangley sisters and
Mrs. Baker were delegates to the
suffragists' convention in London last
spring, when they took an active part
in the work of the militants.

In connection with the battle for
the amendment to the constitution of
the state of Washington, to be de-
cided by ballot in 1910, there is prom-
ised a lively fight between the fac-
tions led by the women of Spokane
on one side and Mrs. Emma Smith De
Voe of Seattle on the other. The lines
are already sharply drawn.

Rev. Dr. S. Willis MacFadden, pas-
tor of First Presbyterian church of
Spokane, probably started something
when he said among other things in
a sermon:

"Believer in woman's rights that I
am, it is beyond my powers of ob-
servation to see why women today
should neglect home and children in
her attempt to secure the ballot.
That is what many are doing. Our
boys and girls are not trained as
our grandparents brought up their
children. We neglect the boy and we
are not bringing up our girls as we
should. The girls of today are the
future mothers of the nation and they
should be train in homemaking and
housekeeping. College education is
not enough."

"SOFT" DRINK IS NOT SO SOFT.

Oklahoma Chemist Finds "Amber Mead" Has 4 Per Cent Alcohol.

Cuthrie, Ok., July 28.—"Amber
Mead," a special brew which is being
sold in several towns on the east
side of the state, has been placed un-
der the ban by Fred Caldwell, state
enforcement attorney. Eleven barrels
of this drink were confiscated by Mr.
Caldwell from Clint Dye at Sapulpa,
and a sample sent to P. E. Laird,
chemist at the Southwest normal
school, who certified after an analy-
sis that "Amber Mead" contains 4 per
cent of alcohol.

Mr. Caldwell stated today that "Am-

ber Mead" is being sold as a soft
drink, and that in some of the cities
and towns on the east side of the
state the municipal officers are li-
censing the sale of this beverage. The
ordinances authorizing such action,
Mr. Caldwell states, are carefully
worded, stipulating that no authority
is extended to sell liquors that are
prohibited by the prohibition law.

The analysis proves, he says, that
the law is actually being violated
under such ordinances. Mr. Cald-
well will bring a test case to stop,
if possible, the sale of alleged soft
drinks under the protection of li-
censes granted by city authorities.

The New Bank.

Improvements on the Freeman
building, which will be occupied by
the new Merchants and Planters bank,
are progressing rapidly. The brick
vault is being built and the fixtures
have already been purchased. It is
understood that the new institution
will be open for business by August
15th.

EDUCATIONAL RALLY TONIGHT

Everybody Should Be Present at the Club Rooms.

There will be held at the 25,000
Club rooms tonight a musicale and
general educational rally, and matters
relative to the first session of the
normal school will be under consid-
eration.

There will be elegant music, also
speaking by several of Ada's best or-
ators and school enthusiasts. Prof.
Briles, president of the Normal, will
make a lengthy address, as will also
Miss Case, who has recently returned
from a tour of European countries.
Everybody turn out and enjoy the
evening.

DEMOCRATS SHOULD ACT.

Congressman Fitzgerald Sees Chance to Deal Blow to Tariff Measure.

Washington, July 29.—Representa-
tive John J. Fitzgerald (democrat) of
New York, who is recognized as one
of the shrewdest politicians and
parliamentarians in the house, today
sounded a call to democrats to seize
what he declares is a golden opportu-
nity to defeat the pending tariff
bill with the aid of dissatisfied repub-
licans. His statement says:

"Democrats should awaken to their
present advantageous position. The
republicans are completely demoral-
ized. The belated attempts of Persi-
dent Taft to compel some pretense to
be made of keeping the unequivocal
pledges made during the campaign for
substantial downward revision has re-
sulted in bitter contentions and vio-
lent controversies among the republi-
cans.

"The insistent public demand that
there shall be substantial reductions
on woolen and cotton goods, hosiery,
gloves, lumber, print paper, earth-
enware and chinaware, farm imple-
ments and innumerable other articles
of every day use can not be satisfied
by free hides and oil, and slight re-
ductions on iron ore which may help
enrich the manufacturer, but result
in no perceptible benefit to the con-
sumer."

THAW IS ALL IN.

Withstands Jerome's Grilling, However and Is Confident.

White Plains, N. Y., July 29.—Pale and haggard, but still confident, Harry K. Thaw, appeared in court today for the second day's examination by Jerome.

Thaw's attorney has called Clifford Hartridge, Thaw's former counsel. It was from Hartridge that Susan Merrill said she received the \$25,000 to be paid to women, who were alleged to have been abused by Thaw in her New York rooming house.

The money, she testified, came from the Thaw family.

This morning Thaw's counsel tried to get possession of the books, containing the accounts of these payments, which Mrs. Merrill said had been turned over to Hartridge. Thaw's counsel failed, however, because, Hartridge said the account books had been destroyed also another memorandum book.

FALSE SAYS BIGGERS.

Declares He Made No Statement That He Would Not Resign.

Shawnee, Okla., July 30.—Virgil Biggers says there is not a word of truth to the report that has been going the rounds on the streets the past forty-eight hours to the effect that he has absolutely refused to resign from his office of county attorney, from which he has been recently suspended by order of the state supreme court.

In an interview with the Herald last night Mr. Biggers, who has just returned from a trip to Seattle, Wash., said in strong terms:

"There is not a grain of truth in the report that I have refused to resign from the office of county attorney."

"Have you handed in your resignation, or are you about to?" was asked.

"I haven't a thing further to say but that there is no truth in the story that I want resign."

Hagar Is Undecided.

County Commissioner Robert H. Hagar, under suspension by the superior court, when interviewed last night stated that he had nothing definite to give out regarding the rumor that he is about to turn in his resignation from office.

"I have no statement to give out tonight, for I am undecided just what I will do. I believe I will know definitely by Monday, however," stated Mr. Hagar.

From the above statement it is evident that Mr. Hagar contemplates handing in his resignation as county commissioner to the commissioners some time next week.

SPAIN ON VERGE OF MIGHTY REVOLUTION

KINGDOM OF YOUNG ALFONSO IS THREATENED.

The People Are Demanding a More Liberal Form of Government and Will Have It.

Madrid, July 29.—Spain is on the verge of an upheaval equal to the French revolution. Foreign intervention alone can save Alfonso's throne. The young king is afraid to leave the palace. Crowds are outside shouting "Down with the king."

Alfonso tried to appease their anger by appearing on the balcony for a speech. His counselors advised him not to take the risk, but he insisted. When the crowd saw him the jeers and hoots were increased and, after standing a few moments with his hands uplifted in an appeal for quiet the king shrugged his shoulders and stepped back inside.

The people are demanding the resignation of the minister of the interior who is called "news hater," because he threatened the arrest of the couriers that brought the news from Melilla.

The probabilities are that Gen. Weyler, whose barbarous career in Cuba is well remembered will be appointed military dictator.

Extreme precautions are being taken for the king's safety. An attack on the palace is not considered too desperate a feat for the aroused people to attempt.

Alfonso is as cool as his old advisers, although he is beginning to show the terrible strain of the last few days. His anxiety is shared by his wife.

The situation at Barcelona, is of increasing seriousness. The remaining few troops are fortifying themselves in the central barracks awaiting reinforcements.

Prince Charles De Bourbon with four regiments, two brigades of cavalry, and battleships, is on the way here to shell the town if the revolutionists do not cease. They are in possession of almost the entire city and suburbs.

The famous church at San de San Antonio, the largest in Spain, have been destroyed by fire.

Socialists are aiding the anarchists. Many have left to spread the revolutionary doctrines throughout the country.

The provinces of Lerida, Girona, Terragona, and the cities of Manresa, Bala, Terrasa, Reus and Alcoy, are expected to revolt today.

WHAT THEY WOULD SEE.

If the Boys of '76 Should Return to Earth.

"I should like to come back to the earth 100 years from now to see what changes science, art and politics would bring in the interval," said Benjamin Franklin shortly before his death in 1790. But what would the American who died on July 4, 1776, think if he should be permitted to take a glance at his country today? asks Leslie's Weekly. The thirteen struggling British colonies of his time have grown into a nation of forty-six states. The 3,000,000 Americans of that day have expanded into 90,000,000. That thin fringe of settlers along the Atlantic seaboard from New Hampshire to Georgia, 133 years ago, has spread across a continent and has advanced to the Gulf of Mexico. The country now fronts on three oceans instead of one as in those days, and it has dependencies in two of them.

Within the memory of thousands of persons who are still actively at work the United States had a low rank among the nations in the volume and the variety of its activities, and in its wealth. Today, the United States with an aggregate valuation of \$120,000,000,000 for its real estate and personal property, equals in wealth the United Kingdom and the French republic combined, which are our nearest rivals in that field. While we have only 5 per cent of the world's population, we produce 20 per cent of the world's wheat, 22 per cent of the world's gold, 35 per cent of its coal, 35 per cent of its manufacturers, 38 per cent of its silver, 40 per cent of its pig iron, 42 per cent of its steel, 55 per cent of its petroleum, 58 per cent of its copper, 70 per cent of its cotton and 80 per cent of its corn.

For Chicago.

Judge and Mrs. C. A. Galbraith departed for Chicago this afternoon, where there will be had by the Judge an intermixture of vacation and professional business and by Mrs. Galbraith a social and recreative visit attached to the duty of looking after her escort. Their principal residence during their absence will be the Saratoga hotel.

NO SPECIAL SESSION.

Haskell Comments on Reports of Desired Legislation.

Guthrie, Ok., July 29.—State officials were surprised to learn that President O'Neal of the Prairie Oil and Gas company had announced that his company would build a pipe line from Oklahoma to the Gulf, if the legislature is convened in special session and that company relieved of provisions of the anti-trust law. It also wants a modification of the Scrain-Yeager pipe line regulating act of the last legislature.

"I had not heard that the Prairie Oil and Gas Company was asking for a revision of the laws until now," said Governor Haskell, when apprised of the statements, "and will say the legislature will not be called in special session for that purpose. If a suggestion from me is worth anything, I would say that instead of trying to bring the mountain to Mohammed, Mohammed should go to the mountain; in other words, the Prairie Oil and Gas Company, or any other, should conform to the law in place of expecting a state to legislate especially for it."

In another instance the state made a concession to induce the Prairie Oil and Gas company to build pipe lines, and that company failed to comply with its part of the agreement, the state says. When Attorney General West filed suits against the Prairie company to prevent it crossing the highways until it had become a domestic corporation, the company promised the governor that certain pipe lines would be built to Oklahoma fields and a general line would be laid to the Gulf of Mexico. The suit was dismissed, but the pipe line to the Gulf was not laid. A statement made before Gov. Haskell by an attorney of the Prairie company was that its application to cross certain Indian lands had been made to the secretary of the interior, following which a protest was filed by the Attorney General of Oklahoma. The protest was either withdrawn or overruled, as later the federal regulations were modified. The state says the Prairie company then made a second promise to build to the Gulf. The latest is, according to statements from President O'Neal, that the work will be carried out if the state laws are modified so as to relieve his company. The original plans of the Prairie company included a \$100,000 oil refinery at Tulsa.

Tishomingo Trouble Settled.

Guthrie, July 29.—The corporation commission has succeeded in having the following agreement made between the Tishomingo Ice and Cold Storage Company and those who were complaining of the service rendered by that corporation. It is a complete victory for the complainants and reflects credit on the corporation commission. The case is entitled James F. Brennan et al., complainants vs. The Tishomingo Ice and Cold Storage Co., defendant.

Agreement: It is agreed by and between the complainant and the defendant that the defendant shall furnish to the complainants and all other persons in the town of Tishomingo without discrimination, ice when demanded, and to be paid for on delivery.

That the defendant shall place scales on each and every wagon and when demanded on the part of the purchaser shall way the ice sold and delivered and shall make no additional charge for the weighing.

That the defendant shall take care of all local costs in the way of witness fees and sheriff's costs.

That this case shall be dismissed in accordance with this agreement when approved by a quorum of the corporation commission.

Witness our hands, this 28th day of July, 1909.

Signed J. F. Brennan, complainant; Tishomingo Ice & Cold Storage Co., by P. F. Foley, defendant.

When you want what you want, when you want it, try a want ad in the News.

Frisco to Double Track. Sapulpa, Ok., July 29.—That the Frisco is preparing to lay double track from Tulsa to Monett, Mo., the beginning of a double track from Monett to Oklahoma City, is the story given out by high officials of the road, and the present grading along the line from Sapulpa to Monett is a strong indication that the story is true. The culverts will be widened, and the grading along the line will be of a character to allow a double track. The plans call for a twenty-four-inch ballast, all ties to be of crosstie, with rails each weighing eighty-five pounds on the ties. Ten gangs started during the past week on the big improvement, and by the middle of the week it is expected that 500 men will be at work. Practical railroad men are of the opinion that the improvement will cost in excess of \$750,000.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. Cheney & Co., Toledo, Ohio.

Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

Tortured on a Horse.

"For ten years I couldn't ride a horse without being in torture from piles," writes L. S. Napier, of Russell, Ky., "when all doctors and other remedies failed, Bucklen's Arnica Salve cured me." Infallible for Piles, Burns, Scalds, Cuts, Boils, Fever-Sores, Eczema, Salt Rheum, Corns, 25c. Guaranteed by G. M. Ramsey.

CORPORATION COMMISSION REMAINS UNCHANGED

WATSON STILL OUT OF TOWN AND NO ACTION TAKEN.

Matter Will Be Finally Settled at the Next Meeting of the Commission.

Guthrie, Ok., Sept. 29.—A. P. Watson, member of the state corporation commission, was still out of town Thursday and the status of the disagreement of the board over the discharge by chairman Jack Love of secretary W. L. Chapman, remains unchanged. Commissioner McAlester is standing by Chapman, but the secretary has not reported for duty.

Chairman Love dismissed Chapman when he found the secretary was furnishing railroads with routine information of the commission's business, such as the data of hearings and proposed orders and receiving money from the railroads. Chapman cited the permission given him by Commissioner McAlester, but Love is not to be appeased.

The matter will be taken up in the commission at its next session.

STONE TALKS STRAIGHT.

Dispensary Head Says Oklahoma City Is to Be Dry.

Oklahoma City will be rid of joints and bootleggers in a short time, according to announcement of S. W. Stone, state dispensary superintendent, who also has charge of prohibition enforcement work in connection with Fred S. Caldwell, state enforcement attorney.

"We have three special enforcement officers in Oklahoma City at present," said Mr. Stone yesterday, "and they have already succeeded in cleaning out most of the joints and bootleggers in that city. We will keep up the work until the metropolis is dry."

Mr. Stone states that the law passed by the last legislature making it a felony to sell intoxicating liquors to minors, is assisting the state materially in the enforcement of prohibition. The first arrests for alleged violation of this law have been made at Oklahoma City.

Sons of Veterans.

Sulphur, Okla., July 29.—Charles B. Emanuel, commander in chief of the Oklahoma division of Sons of Confederate Veterans, today issued a call to all camps of the state to join in the joint reunion of veterans, Sons of Veterans and Daughters of Veterans to be held at Chickasha August 25, 26 and 27.

"I have refrained from appointing my staff until this reunion," says Commander Emanuel, "at which time I shall expect to advise with all the camps before making appointments."

ASSAULT WAS JUSTIFIED.

Police Judge Dismisses Case Against Senator Stone.

Baltimore, July 29.—Senator Wm. J. Stone of Missouri, appeared in the central district police court here Wednesday afternoon to answer to the charge of assaulting Lawrence G. Brown, a negro waiter on a Pennsylvania railroad train, on which the senator was traveling from Philadelphia to Washington Tuesday.

Justice Grannan, after hearing the evidence, which included a statement by senator Stone, decided that the assault was justified and dismissed the case.

WILL OPEN BUILDING BIDS.

State Board of Affairs to Award Ada Contract.

Guthrie, Ok., July 29.—The state board of affairs will open bids on Sept. 1 for the construction of the state normal school building at Ada, to cost \$100,000, which sum comes from the public building fund. The Ada building is to be a duplicate of the new building recently put up at the Weatherford school.

Will Teach School.

FROM COLD MUTTON

MANY EXCELLENT DISHES MAY BE PREPARED.

Mistake That is Too Frequently Made in Cooking Hash—Grilled or Devilled It May Suit Tastes of Many.

Very few people enjoy cold mutton unless it is served during hot weather with a daintily prepared salad, and even then a frequent repetition becomes monotonous, and the time comes when the bone is so much in evidence that re-cooking the remainder becomes necessary, in order to prevent it being wasted.

The most common method of reheating cold mutton is in the form of a hash, but in very few cases is it successfully made, for most people make the mistake of putting the cold meat into hot gravy and allowing it to boil. The cold meat should be put into cold gravy, and should be kept under boiling point, until just before serving it is brought to the boil for one minute, so as to cook the flour with which it is thickened. There are many other ways of re-cooking cold mutton which would give variety, and prevent its palling on the appetite.

The value of the bones must not be overlooked. The meat should be cut off very closely from them, and they should be placed in cold water and then boiled for several hours to make a supply of stock, useful as a foundation for soup or in the manufacture of dainty dishes from the remains of the meat. Fat which seems in excess should be trimmed off and melted down to form drippings, but a large mass of cold fat such as is found at the edge of a shoulder of mutton should be chopped finely and used as suet in the making of boiling puddings.

The simplest and quickest method of re-cooking mutton is by grilling it, but for this purpose only the largest and most suitable pieces should be employed. The meat should be brushed over with salad oil, sprinkled with pepper and salt, and grilled for a few minutes on both sides over a clear fire, which should be sprinkled with a little salt to make it burn clearer. If the pieces are brushed with oil and dipped in curry powder before they are grilled, they can be served as devilled mutton, and in this form they make a delicious dish.

Curried mutton is also excellent, for although fresh meat makes the best curry, one made from cold meat is not to be despised if it is carefully made. Peel and core two medium sized apples and cut them small, and peel and slice two onions. Fry the apple and onion in an ounce of dripping, but do not let them burn. Mix a heaped teaspoonful of curry powder and a tablespoonful of flour into a smooth paste with half a pint of cold stock. Pour it slowly into the frying pan, and stir it until it boils and thickens. Pass the curry mixture through a wire sieve, add pepper and salt to taste, and when it is cool add about one and one-half pound of neat pieces of cold mutton. Allow the mutton to get heated very slowly, and when it is almost at the boiling point serve it in a border of rice which has been boiled so that the grains are distinct.

Scrambled Eggs and Clams.

Rinse and drain two dozen good-sized clams and chop them fine. Beat together three eggs, add to them three tablespoonfuls of clam juice. Heat one tablespoonful of butter in a frying pan, turn in the clams and shake and turn occasionally until nice and brown. Pour in the eggs, add seasoning to taste and stir until the mixture is a soft scramble, then pour over hot buttered toast.

Egg Surprises.

Required: Half a pound of sausage meat, three eggs, egg and bread-crumbs, deep frying fat, chopped parsley, and made mustard.

Boil the eggs hard and remove the shells. Divide the sausage meat into six portions, add chopped parsley to each and some made mustard, and roll each one out separately in flour. Then roll half an egg in each.

To Clean Silver Quickly.

Place two quarts of potato peelings and one quart of water in an iron frying pan or spider, cover and boil ten minutes; then drop in as many silver spoons, knives and forks as the water will cover; continue the boiling and in less than ten minutes they will look like new. Remove the silver, wash in usual manner, rubbing well with dry, soft towel.

Red Pepper Sandwich.

Take one-half pound American cheese and small can red peppers, "Pimentos Morrones." Put cheese peppers through meat grinder. Then add enough mayonnaise dressing so it will be thin enough to spread. Cut thin slices of bread, butter, and use filling as above.

Baked Onions.

Parboil six large onions, slice off the tops and remove the centers and chop fine with breadcrumbs and bits of cold meats. Add one egg, salt, pepper, and tomato juice. Fill onion shells and cover with breadcrumbs dotted with bits of butter and grated cheese, and bake.

For Washing Teeth Brushes. Tooth brushes may be washed in a strong solution of salt and water.
